More Time Signatures and Beaming

In 2/2, each measure has two beats and the half note receives one beat. **Cut time** is another name for 2/2. It is written with the symbol ¢, a C with a vertical line through it.

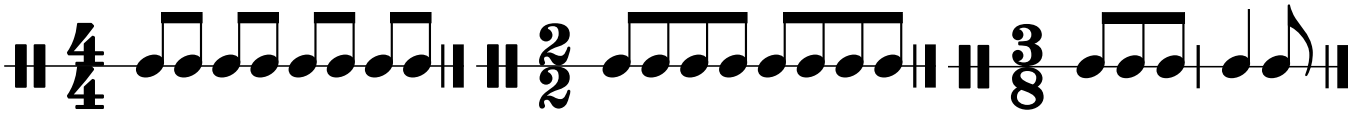

Cut time = 2/2

In 3/8, each measure has three beats and the eighth note receives one beat. The pattern is strong–weak–weak, as in 3/4.

Beaming

Beams show where the beats are. Eighth notes that fall within the same beat are beamed together.

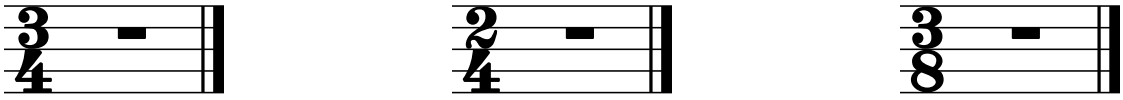

- In 2/4, 3/4, and 4/4, beam eighth notes in pairs, one pair for each quarter-note beat. In 4/4, a beam never hides beat 3.
- In 2/2, beam the eighth notes within each half-note beat, up to four together.
- In 3/8, beam the three eighth notes of a full measure together.

4/4: pairs 2/2: groups of four 3/8: groups of three

The whole rest

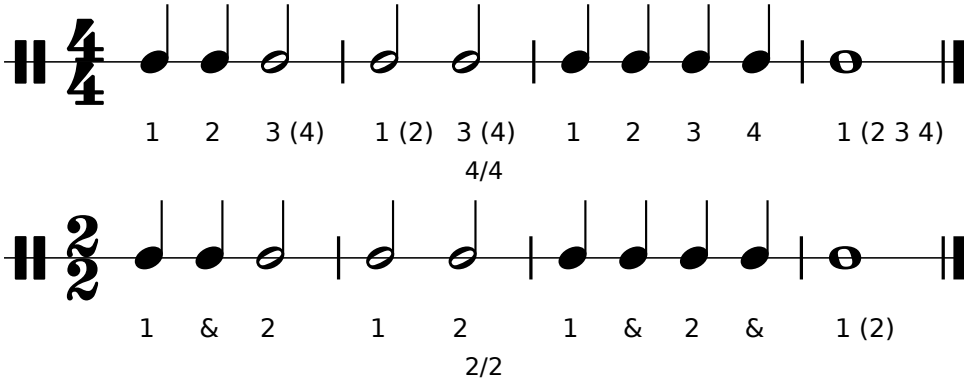

A whole rest fills a full measure of silence in any time signature, including 3/4, 2/4, and 3/8.

3/4 2/4 3/8

One rhythm, two meters

The same notes are written below in 4/4 and in 2/2. In 4/4 the quarter note receives the beat, so the counts move in quarter notes. In 2/2 the half note receives the beat: a half note is one beat and two quarter notes are counted "1 &".
